Development & Continuous integration

30/03/2015

PERSONAL INFORMATION

I am 24 years old, currently at study. Of eclectic nature, I'm very interested in computers, new technologies and humanities.

I like the contact with people, learn and share my knowledge. Enthusiastic and passionate, I do not spare my efforts when the subject interests me.

STRENGTHS

COMPETENCE

Programmation language

PHO POO Javascript Python Groow

knowledge

User interface Distributed architecture Design pattern Real time / websocket ♠ Network security CCNA1

Frameworks used

AngularIS Grails 3 Selenium Spring - MVC

Data base

Mysal PostgreSQL Oracle

Project Management & Package Manage

Composer Maven Gradle

Software

Apache / Tomcat Sonarcube Teamcity Ienkins Yourkit

Eclipse Intellij PhpStorm

Photoshop Illustrator

STUDIES / QUALIFICATION

From september 2015 to now. Master 2 Rech. Philosophy of science 1 year Pierre-Mendès-France university, France.

From September 2012 to july 2014. Master MIAGE 2 years Joseph Fourier de Grenoble university, France.

> From septembre 2011 to july 2012 Joseph Fourier de Grenoble university, France.

From septembre 2019 à Juin 2011 2 years DUT Network & Telecom. Savoie university, France.

PROFESSIONAL EXPERIENCE

Internship

Project

1 year Alternating

Implement an continuous integration

Current hard to take care. Biggest JAVA ERP software. Steps: Problem analyse, comparison and selection of technologies, documentations, demonstrations, developments and release.

→ Maven, Nexus, Java, TeamCity, Sonarcube, SVN, Ant Imagina international - september 2013 to september 2014

2 weeks Project

Software architeture of PCET application (Plans Climat-Énergie Territoriaux) Selection of technologies and design of software.

Communication with a team of fifteen students. → AngularJS, PHP, Composer, Git, Bootstrap

Joseph Fourier university - march 2014

2 months internship

Test plateform, analysis performences and automatic deployment Compare solutions and documents

→ Java, NodeJS AngularJS, Sahi, Yourkit, Pantomis Imagina International - may 2013 to august 2013

2 months internship fix-term contract

Development of a billing and monitoring solution for the cloud → Apache CloudStack,OpenStack,Tomcat, Java

Apalia - Amysta - march 2011 to august 2011
